

# Ehoah Ceremony Outline

**Individuals are free to enter or leave ceremony at any time**

## **Beginning an Ehoah Ceremony:**

- Walk onto grounds from West (going the direction of the earth's spin) in one full circle around perimeter (illustration as guide, the direction of circling the grounds depends on which hemisphere you are on)
- On the second go around, gather in loose circular clump around center, which could potentially have a fire (children and pets can move freely about)
- Once everyone is gathered, collectively do a verbalized deep Inhale
- Hum led and stopped by designated organizer, stopping when the 'feeling is right' (or [chant Eh-O-Ah](#) thrice)
- Acknowledge directions in open stances:

“I/We acknowledge the East, the direction we turn to, toward our host star at dawn and deep space at dusk.”

“I/We acknowledge the Sky (face nearest pole); from plants we have the ocean of air that envelopes us; Our shield, our breath.”

“I/We acknowledge the West, the direction we turn from, where we last see our host star before night, and deep space before day.”

“I/We acknowledge the Earth (face equator),

- Place left hand on heart, and right hand on other kin (whether it be human, pet, plant, or soil organisms – by touching ground) (the resulting group position is called the Web of Life)

From star dust, a new star, planets – this planet; developing from its oceans, along a long lineage of life, now exists all current life on this planet; we are all made of this place we call home.”

- Turn to face Nearest Pole or Center and begin ceremony focus (bonding, birth, diffusion, Solis Festivitas etc.)

## **Closing an Ehoah Ceremony:**

- Do Web of Life
- Led Hum or Thrice Chant
- Verbalized Deep Exhale  
“As we go our separate ways, know that we are not truly divided.”
- Leave toward East – the direction earth turns toward.

# How do you say 'Saegoah' and 'Ehoah'?
